

Exclusive rates for Existing Mortgage Customers

Our Existing Mortgage Customer (EMC) Reward rates are exclusively available for existing mortgage customers when **switching rates** or **borrowing additional funds**.

Switching to a new rate

If you are looking to switch the rate on your existing Barclays mortgage, you may be eligible to do so online without advice. If you would prefer to receive advice, call us to arrange an appointment with one of our mortgage advisers.

Borrowing more on your Barclays mortgage

If your home is worth more than your remaining mortgage balance, you may be able to borrow further funds for home improvements, a special purchase and more. Your total borrowing, which includes the extra money you want to borrow and your current mortgage, would be limited to a maximum percentage of your property's value (see below)

Thinking of moving home?

Our mortgages are portable*, which means you may be able to apply to move your existing mortgage rate across to your new home.

This may be useful if you are trying to avoid early repayment charges.

The rates on the following pages aren't available for home purchase. You can download more information about our home purchase mortgage rates at barclays.co.uk/mortgages

*Subject to product availability, status and application. Terms and conditions apply

Reward rates explained

The following terms are used in the rate tables:-

- **Bank of England Base Rate (BEBR)** is a variable rate set by the Bank of England. BEBR is currently 5.25%.
- **Your Loan to Value (LTV)** is how much you have borrowed, expressed as a percentage of your property value. The amount you have borrowed against your property is calculated as your total aggregate lending.
- **Aggregate lending** is your total borrowing amount with Barclays i.e. the total you have outstanding on the mortgage accounts secured on your property and includes your Mortgage Current Account overdraft limit, if you have one.
- **Additional borrowing** is limited to a maximum 85% of your property's value for residential mortgages (80% if any of the borrowing is to be used to repay outstanding debt) and would include the extra money you want to borrow and your current mortgage. For buy-to-let mortgages the maximum is 75%.
